

August 12, 1940

Dearest Edna,

The letter you wrote in the Post Office arrived this morning. I wish I could help you tend your Aunt's children but I would probably would have needed more tending than the babies just as I did last time.

About what time do you expect to arrive in Salt Lake? If it is in the morning I will be there with "Henry". If it is when I have to be to work Dad and Ruth will be there with "Henry".

Since Friday noon I have worked 48 hours but I still had time to go to the Dentist, Sunday School and have a nice long visit with the Bishop. He will send for a physical examination blank which must be filled by the doctor. After that I have the choice of any date to leave so long as I notify him 2 weeks before the date which will give the officials a chance to get everything ready.

My Cousin - the one I was staying with for two summers - and his ^{engaged} girl friend was here when I came home from Sunday School. I tried in my weak way to show them a good time, but the weather was as

As it was in the river bottoms.

Believe, to me you are tops, some day I will
be able to partly repay you for your kindness to
me and my friends.

My love went any more.

Good afternoon Sweetheart

Sincerely yours,
Edmund
