Dearest Online,

When I am with you three days are gone before I have time to realize, but when I am working at the smelter three days drag out like a week and a half.

I know you feel better toward me when we maintain our high standard of morality for that reason I try in my weak way to keep from tempting you, even when I tempt you your will power is strong enough to resist. (I admire your Post Iron Institution Online.)

Ernie you are too good to
this no-account guy from Toledo.
He thinks you are swell and
appreciate all you do for him even
if he doesn't show through actions.

I think your folks are swell
people. Carry to them my thanks
will you Ernie.

Tringly and faithfully forever,

Edmund

LONESOME

for You!

MADE IN U.S.A.

I walk around in circles
And don't know
what to do,-
The world is
full of people,
But as for me,
I'M WANTING YOU!

*Forever yours,
Tedmund*
