

Monday 2:00 P.M.

Dearest Elsie,

Now we are Marvin & I one on each side of the table at his place. I went to motel at the smelter this morning then came down with him because all his folks are in Salt Lake.

"Henry" brought me to the conference in time yesterday, sure wished you were with me or at least able to hear the speakers. Every talk was one that a fellow like me needs to hear every day. The Relief Society had a lunch prepared in the basement for out of town people. At 1:00 all the Prospective Missionaries was to have an interview with Apostle Bowen but by the time three was interviewed it was time for the 5:00 Session of Meeting. For 20 minutes he asked ~~me~~ me questions as fast as I had time to answer, They were about the same as had been asked by the Bishop. He didn't tell me when I could go out & was informed that they would send a call some time this week or the first of next which tells time & place.

I think I will speak with the Ex-Personels.

Manager, maby he will put a good word
to the new one for me, because these days
who one knows goes lots farther in getting
a job than what one knows.

Thanks! I live for letting me stay at
your place, some day I hope to repay you at least
a little for what you do for me.

I am happy to think of going on a mission
right away quick because the sooner I leave
the sooner I will have been out for 2 years.

Does the machine work as good as you
expected it to ~~write~~ sew? Well if you don't
know yet you will find out before long, because

When I come up again I will have all
the writing in the book done up to date.
Yes, I hope that some one remembers to take
some pictures so we will always have some to
stick in.

Thanks again Dear for everything I appreciate
all that you do for me.

Lovingly yours,

(To Be Continued)

Edward
