4July 1942

Dear Earline,

Your fine letter and card arrived last evening and I was happy to here that you are over your cold and stomach trouble. This is the second Fourth of July that I have spent in this fine State of Montana, But we aren't doing mucu celebrating this day at all. I arose at six thirty this a.m. and wrote a letter to my brother Dick in answer to the one that He sent last evening also.

This pats week we have had many fine expiriences in the Mission field. Monday last we were tracting in teh out skirts of town and knocked on a farm house door but got no results. We could see the farmer a little ways out in the field making hay so we walked out in the field to talk to him,; Low and behold we seen that his wife and two I4 years old daughters were helping him because he couldnt get help at all. We thought that we could break the ice that was there when we called beforeso we took to helping him. Before long his wife left and when supper had come we were invited to have supper with them. They all drunk coffee for the main beverage so we had an oppertunity to preach the "ospel by our action.

Say you know that the weather has changed from winter to summer this past week. there is big drops of miosture running dawn my brow. The watter in the swimming pool is plenty good these days, I think that companion is over to the pool now but I have a lot of work that I should do now that I have this typerighter. The reason that I have it is that while we were to the library the other day I asked the Librian if she knew of any where that a fekkow could find a machine for a day or to to make a few notes in my little notebook. She didn't know of anyone but she told me that I could use her's over the week end because she was going to be in Billings for four days.

Well I suppose that I have enough so far to let you know that  
I am pretty well and happy in the work that I am still engaged.  
May the Lord continue to bless you and your folks at home.

Faithfully and Lovingly yours forever,

LeGrand
