

Columbus, Mont.

Box 566

10 October 42.

Dear Estine,

Stand by for a short line from Columbus this week end. We are all in our room this day being tired & lazy. So for this day I have read a few articles in the Era & wiped the breakfast & dinner dishes.

It is now 2:00 P.M. so its best that I get busy with a few of my weekly letters and yours is first this day.

There is a Columbus fellow ~~from~~ in Logan. He was drafted a few weeks ago. I believe - and is in Logan at the W.D.A.C. for some reason. He was just married a day or so before he left so I hear, & his wife is in Columbus. It wasn't till yesterday that I found that he is in Logan so I obtained his address & will tell him to call on you some time.

because I knew that whoever was
a friend of mine in Columbus would
be a friend of yours. I hope your
telephone is still 697-1-

His name is Don ~~Hegland~~ ^{Hegland} and
I have in mind of writing him ~~out~~
this day and tell him to look you
& Grandma too up. It will help him
to spend some of his time & might
be the opening of some good
Missionary work -

A few weeks ago Dad told
me that Pres. Dunn spoke to
him & told him that Bishop Shields
was to get a release so he would
lose his job as Counselor to the
Bishop but never said a thing
about the new Bishop & this is
what I clipped out of the recent
Paper -

Everyone in this section is in
the midst of the sugar beet harvest.
The business men & school students

are all helping in the great
enterprise. Companion & I have been
thinking of helping for a day just
for the purpose of making friends
mostly but Companion has been in
the Beets too many days already at
home. He has helped a couple of days
in Nyrum, Utah - so more than
likely we won't go out at all.

Besides there is lots of missionary
work that needs to be done without
going into that line - Although one
can never tell just what will
happen in this work -

The longer I am in this work
the more I become wrapped up
in it - that is if we get to
doing something - but the days we
don't do so much they are the
ones that are long and drawn
out.

Thanks Millions for the
check you sent the other day.
Just so long as you know that
I appreciate what you have been

Doing to make this mission possible.

My love for you is strong as ever
and you may as well know it now
as ever -

The other day I spent 35¢ &
bought a cable release for the Kodak.
Now low & behold it is nearly fool
proof, even this fellow can take
pictures & only shake the Kodak once
or twice out of 8 or 10 films -

Well there is lots of work
to be done so will sign off for
now with lots of love to you -

LeGrand
