Camp Walters, Texas

No there this evening.

Well by the heading you can see that I received my assignment. Company D-65 Infantry Training Battalion - Camp Walters Texas - This is the second day I've been in the state and the second day it has rained.

Is this ever rough! About 30 in this Barake on the top deck from Minnesota, Ill. Ohio Missouri, & 15 other states I suppose. All types of fellows all that a fellow could find in the civilian life I suppose.

This is quite or much of a country. Oak trees grass up to fences - a few hills about as high as the college hill and Barake as far as you can see in every direction.

You probably think this is a short letter but I'm going to have to sign off if I don't think of more to write. Oh yes one thing that I have on my mind.

If you see a good pair of light garments they would come in handy for me. Is this ever hot

place to be. Say by the way get a pair that  
Size 40 this time - these 44's are  $\frac{3}{4}$  the way  
to my ankles now. When I sweat they stretch  
& I've been doing a lot of stretching sweating  
these past two days. Maby 2 pairs with these  
2 that I have will be plenty.

Well so long for now with lots of love  
to you all -

Smile!

Private Walter S. Whipple.

AFTER FIVE DAYS RETURN TO
