Hello there -

Just a short line before bed time to let you hear of me. I've been busy from day light till now & still have another hour to 10:0 PM now - They received some new work or details for this platoon so here we're out after it.

Your letter came that told me of the death of Pres. Grant. Well - I got to go so so long for this night.
Lots of love to
you all -
just me -
