

CAMP WOLTERS, TEXAS

Saturday 6:45 PM.

Hello there -

Stand by for a short line from this part of the good old earth - When you received the letter that I wrote last night telling you that I worked till midnight you received only $\frac{1}{2}$ of the story. I worked all night - called the company for breakfast then worked along with them all day - there was a catch to the deal I spread my blankets on the floor at 1:30 & slept till 5:30 -

Say you know I long to see you once more - I was thinking just now that it has been one month now since I saw you in Logan - It seems like ages in one way but in another way the time has passed fairly rapid.

I have a hard time to get my head to work this evening - I might say that I received your letter from Dayton, Idaho - the one that you asked me about the shaving rig that I mentioned. In one later letter I showed a picture of what I have in mind - But I

am not so sure if I told you to pick out a heavy flour sack or something on that Order. As for the color - it can range from Black to white or any shade in between.

I found out this day that they will pay on the 10th of this month. I am not so sure just how much they are going to pay. Probably somewhere between 10 and 30 that is a rough idea. I don't know for sure though.

Well this is just a line this night but it will let you hear from me this day - I am about to sleep - that is why I better be up & coming. I just finished washing 2 pro. garments & 2 pro. Sox - I sent two more pro. garments in the laundry along with towels & other things. If I wash out two pro. of garments twice per week and one pair of wool Sox every night I can have a clean pair of Sox every day along with a pair of clean garments. My clothes are Tattle Tale Gray but they are clean. So what the heck — — —

So long for now with love
Smile sweetheart
