

Thursday evening

Hello then Dear Wife & Son -

Now for a short line to let you hear from me - The weather is just as hot as it has been in a long time. It seems that they are courving out with hours about the same as a farmer works.

These last few days we have been arising in time to clean Barracks - eat breakfast etc and be out on the firing line by daylight. & be on the call till about 7:30 or 8 in the evening & walk in to camp for an hour & have supper & clean Rifle - Shower Shave Shine Shoes & etc:-

Some of the city buses are having a tough time to make it. They are plumb full of aches & pains & beat.

Two of your letters comes some days & one others when I receive a line from you - Its plenty good to come in & have one of your letters to read.

This evening we have a night problem - Or I should say we all go to Medics for an examination - Its what they call a screening - At this time they send fellows out who can't take it physically - & Mentally. There is one or two who will be screened out of 1000 - Just enough to fulfill the law I suppose.

Time to Fall out so I'll sign off with Lots of love to you - Smiles
Strand

AFTER FIVE DAYS RETURN TO
