

7 Nov 45

Greetings Dear Wife & Son.

From the ship again this evening. Yes we pulled into the bay (Nagasaki Bay) last evening and had one good nights rest. Then this morning again we are underway. Everyone had all their things together and ready to leave the ship at Nagasaki Bay. But we are still on the go. It is 25. by me. I get all I want to eat and for the last few days I have been able to make a few nickels on the bartering deal - So next to home this is just as good a deal as any place.

Yes, it will be a great old day when we can all come home to stay. May if I keep plugging along while I am over here.

I will have a small nest egg to go on when I get back.

And you all know that it will be a good deal to have a little to go on when once I get home. Well it's just after supper. I worked in the galley till noon then cut hair this afternoon. till supper time. While my supper is settling I will write then I will get back to my work. When I am busy time goes faster - you know that because you have told me a plenty times.

Well I will close for now with loads of love to my swell wife & son - Remember I love you - smile -
you - *Salvatore*
